Science exhibition at GMRT from Feb 28

As a part of its science popularisation programme, the National Centre for Radio Astrophysics, a constituent of the Tata Institute of Fundamental Research, will hold a two-day science exhibition from February 28, celebrated as the National Science Day. The exhibition will be held at Giant Metrewave Radio Telescope at Narayangaon, about 80 km from Pune. A total of 23 schools and 20 colleges will participate.
