Pune: Students of the Abhinav English Medium School and Junior College studied in detail various scientific models at the Inter-University Centre for Astronomy and Astrophysics (IUCAA). The students paid a visit to the centre to mark the national science day celebrations.

Models displayed to the students included those ranging from the radio telescope to household utilities and easy ways to make scientific toys. They also gathered information about careers in astronomy and astrophysics from experts on the occasion.

Expressing their opinion after the visit, a group of students including Piyusha Kadam, Priyanka Khadkikar, Nimish Raj and Somnath Khatpe said that the IUCAA has contributed to
